CORE ADMIN

Guide for Cooperative Inspectors (CI) — assigning MPCS and Milk PCS to ACI / PA

Department of Cooperation
Government of Sikkim

What you can do as a CI

Role	Field app	CORE ADMIN
CI	Yes — register your institutions, file reports	**Yes** — review reports, assign institutions to ACI / PA
ACI / PA	Yes — only the institutions you assign to them	No

- You see only your own institutions and your own ACI / PA. You cannot see or change another CI's.
- One institution can be given to more than one ACI or PA. Each one only sees what is assigned to them.

Step 1 — Register your institution (field app)

1. Open **https://core-cooperationdptt-gos.vercel.app** and sign in.
2. Open **My Institutions** (menu → **+ Add / Manage My Institutions**) and tap the **Add** button.
3. Choose **MPCS Society** or **Milk PCS Unit**, enter the name, registration number and address, and save.
4. It now appears in your list and is yours to assign.

Step 2 — ACI / PA register themselves

- Every ACI and PA registers in the field app (**Register here**). They appear in your **Users & Roles** list straight away. No Admin approval is needed, and you do not create accounts.
- Until you assign them an institution, they can sign in but see no institutions.

Who sees whom

- **You (CI):** yourself, your own ACI / PA, and every ACI / PA that no CI has taken yet. You never see another CI.
- **Once a CI assigns an ACI / PA** to an institution, they belong to that CI and disappear from every other CI's list.
- **If a CI revokes** all of an officer's institutions, that officer returns to the shared pool for all CIs.
- **System Admin:** sees everyone and which CI assigned which ACI / PA (Governance Tree).

Step 3 — Assign an institution (CORE ADMIN)

https://admin-ten-rho-87.vercel.app

1. Sign in with your usual CI email and password.
2. Open **Users & Roles**.
3. Tap **Assign ACI to Unit** or **Assign PA to Unit**.
4. Select the **MPCS / Milk unit**, then select the **officer**.
5. Confirm. A message says the officer is now assigned to that unit.

Shortcut: in the officer's row, tap ⋮ → **Assign institution** (it names the officer for you). On a phone, use **Assign another institution** on the officer's card.

Change or remove an assignment

- **Reassign Unit** — hands that institution to a different ACI / PA.
- **Revoke** — removes their access to it straight away. You can assign it again later.
- **View Governance Tree** — shows who has which institution.

Check it worked: ask the ACI / PA to open the field app → **View My Institutions**. The institution should be listed, and they can now file its monthly report. If the list is empty, ask them to sign out and sign in again.
